

C-FILMS

BIOGRAPHY

The C-FILMS AG based in Zurich is nationally and internationally active in the development and production of cinema, TV and documentary films, as well as series. Management of the company is in the hands of the producers and owners Peter Reichenbach and Anne Walser, along with general manager Roland Stebler.

In April 2019 the Berlin based CETERA FILMS was launched, founded by Anne Walser and Manfred Klemann. With Julia Katz, who specializes in international co-productions, CETERA FILMS will complement the core activities of the parent company by focusing on international feature films and series.

Among the numerous projects currently in pre-production is a film version of the bestseller THE BLINDSIDE OF THE HEART (Original Title: DIE MITTAGSFRAU), directed by Barbara Albert, based on the novel of the same name by Julia Franck. The international coproduction starts its shootings in spring 2022. Another international feature film, SISI AND I directed by Frauke Finsterwalder and written by Christian Kracht, is currently in postproduction.

Productions by C-FILMS AG have won many awards and accolades, both at home and abroad, including several Swiss Film Prizes, the German Film Prize (for DAS WAHRE LEBEN), a total of three European Film Prizes (for the coproduction YOUTH by Oscar-winner Paolo Sorrentino) and Emmy Awards for the coproductions IN THE NAME OF GOD and DIE MANNEN – EIN JAHRHUNDERTROMAN. The films LITTLE MOUNTAIN BOY, RASCALS ON THE ROAD, GROUNDING – THE LAST DAYS OF SWISSAIR, THE FOSTER BOY, NIGHT TRAIN TO LISBON, I AM THE KEEPER – and most recently the two feature films ZWINGLI and PLATZSPITZBABY – have also been among biggest Swiss box office hits in recent years.

Alongside numerous television and cinema productions, the firm has also made a name for itself as the producer of outstanding TV series. The most recent of these is the successful Swiss crime series WILDER. The fourth season was released in January 2022 and has already been a great national success. Sales in other countries of the previous series have been outstanding. C-FILMS AG is also producing episode five and six of the TATORT ZÜRICH series, which are currently in postproduction. At the moment approximately 20 projects are in development and financing, including numerous film adaptations of literary works as well as international series.
